Objective

Computer Engineering graduate with hands-on experience in **Java**, **Spring Boot**, **React**, REST APIs, and object-oriented design. Skilled in data structures, algorithms, and software design principles, with practical experience building **full-stack applications** and modular software systems. Seeking an entry-level **Software Engineer** role to develop reliable, maintainable, and scalable software solutions.

Technical Skills

Languages: Java, C, C++, Python, JavaScript, SQL

Technologies & Tools: HTML, CSS, Spring Boot, Node.js, Express, React, Tailwind CSS, JUnit, MongoDB, MySQL, REST APIs, WebSockets, Git, GitHub, Docker, Postman, Linux, AWS

Core Concepts: Data Structures and Algorithms, Object Oriented Programming (OOP), Design Patterns, System Design, DBMS, Operating Systems, Computer Networks

Projects

ParkEngine - Scalable Parking Allocation System GitHub

Tech Stack: Java, OOP, Design Patterns, System Design

- Designed and built a command-line scalable parking lot system in **Java** with a modular, extensible architecture.
- Applied **Factory, Strategy, Observer and Singleton** design patterns to support multiple vehicle types and payment strategies.

File Packer Unpacker Live | GitHub

Tech Stack: Java, Spring Boot, REST APIs, React, Tailwind CSS, JUnit

- Built a **full-stack** File Packer and Unpacker using **Java**, **Spring Boot**, **REST APIs**, and **React**.
- Designed a **custom archive format** with an SRH3 magic number and implemented REST APIs for packing, inspecting, validating, and unpacking archives

Customised Virtual file System (CVFS) GitHub

Tech Stack: C++, Linux, Operating Systems, File Systems

- Developed a customised **virtual file system** in **C++** to simulate file management and file system operations.
- Implemented **inode-based** file organization and file metadata management to represent files and maintain their associated information.
- Applied **operating system** and file system concepts to implement file access, directory management, and data organization.

Education

Siddhant College of Engineering, Pune, Maharashtra Nov 2022 – Jun 2026

B.E. in Computer Science and Engineering ***CGPA: 7.64/10***

Achievements

- Solved **150+** competitive programming problems on LeetCode, CSES Problem Set and Codeforces, covering arrays, strings, linked lists, dynamic programming, mathematics and greedy algorithms
- Secured a **top-10 rank** in the college-level coding contest (2024)
- Reached the **final round** of the inter-college hackathon (2025)

Certifications

- AWS Cloud Technical Essentials – Amazon Web Services (AWS), Coursera — Sep 2026
- Java Full Stack Development – Marvellous Infosystems — Mar 2026
- SQL Skills Certification – HackerRank — Jan 2026
